COVID-19 Response Plan & Training Package

Here's What You Can Expect...

Video Conference / Conference Call

A quick video conference will allow our SH&E Professional to help you determine the best procedures to keep your employees working safely when they return to a worksite.

Prepared Plan

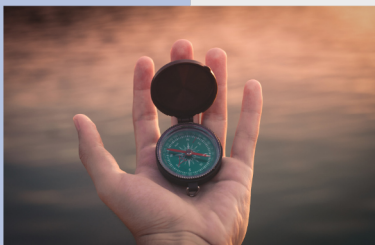

After your Consultation, our SH&E Professional will draft the plan and provide for review, input, and approval.

Once approved, we provide it to you in Word format.

Narrated Training Module

We will create a narrated training module that reflects your program and give it to you in PPS format, then you can use it to train your employees.

Just put it on and go.

We Will Be Your Guide
